BSC in accordance with federal law, Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, affords students certain rights with respect to their educational records.

BSC is committed to maintaining the privacy of educational records in accordance with the provisions:

1. The right to inspect and review educational records within 45 days of the day the college receives a request for access.
2. The right to request the amendment of the educational records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights.
3. The right to provide consent to disclosures of personally identifiable information (PII) contained in the student's educational records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to request personally identifiable information (PII), or directory information, not be made public.
 - Directory information is information contained in the educational record that would not generally be considered harmful or an invasion of privacy if disclosed. Directory information may be disclosed publicly in printed, electronic, or other forms without prior written consent.
