

WEB PAGE DEVELOPMENT AND DESIGN

Program Description

This curriculum is designed for students who want to specialize in Web Page Development and Design. Web languages covered in the Web Page Development and Design curriculum are HTML 5, CSS3, Sass, Bootstrap, XML, JavaScript, jQuery, PHP, and Python. The curriculum additionally offers training in Adobe Creative Cloud software.

Preparation

Students interested in Web Page Development and Design should enjoy problem solving, researching online, be detailed-oriented and able to work independently. High school students should have successfully completed English, math, and computer classes. Early entry course options between Bismarck State College and the high school may be available.

Minimum computer skills requirement:

- Keying accurately at 20-30 wpm
- File management skills including folder creation, copying and pasting, renaming files, and file location

Minimum English skills requirement:

- Student should have completed or be currently enrolled in ENG 110 English Composition I

Students must be able to work independently and in teams.

If a student does not meet the minimum computer and/or English requirements, an example first semester:

ASC English to enter English 110 or ENGL 110	3
CSCI 101 Introduction to Computers	3
BOTE 152 Keyboarding II	3
Arts & Humanities	3

Program Requirements

Students completing the two-year curriculum receive an Associate in Applied Science (AAS) degree in Web Page Development and Design.

Students completing the one-year curriculum receive a Program Certificate in Web Page Development and Design.

Students are required to have access to the Adobe Creative Cloud software for courses CIS 210 and CIS 230. Selected BSC computer labs have all installed software for this curriculum.

Career Opportunities

Employment opportunities are expected to grow, as research shows computer-oriented careers are among the fastest growing in the country. Employment of Web developers is projected to grow 13 percent from 2020-2030, faster than the average for all occupations. Source: U.S. Bureau of Labor Statistics.

Career opportunities: Web designer, Web developer, Web programmer, Webmaster.

If you have taken past IT courses, please contact your advisor.
